

# AFC Manual Review/Update

- Last updated May 2012, purpose of this review is to keep the AFC manual current.
- We will update the manual in draft form, send it out to the AFC for final comments hope to have it updated by the next AFC meeting - Winter of 2015
- Administration
- Procedural
- Technical

# Administration

- Chairmen and honorary member list updates
- Update relevant ASRI corporate memos updated in rear
- Review (and combine?) classifications of members (guest, cooperative and ex-officio)?
- Update AFC voting list
- Association can be given full membership?
- Eligibility for Chairman for membership (full and associate member)?
- How many alternate members are possible if contracted out?
- ASRI staff membership status
- Remote voting procedure via email
- Official AFC remit?
- What license data that is releasable under certain conditions?
- Clean up of organizational descriptions in last chapter (1 para each)?

# Procedural

- Labeling channel frequencies on dispatch point touch panels
- Spectrum monitoring process and reporting (including confidentiality of data).
- Use of X-band linkers between different radio networks
- Change/remove de-icing default channel.
- Categorize licenses?

# Technical

- Latency limits for new VDLM2 channel requirements
- Timelines for applications of new VDLM2 frequencies based on traffic prediction models
- Revise co-frequency separation table values.
- Review equation for justification of additional licenses
- Radio and environmental parameters used for planning of AOC frequency assignments
