

FCC Items

AFC Spring 2014 Meeting
Vancouver, BC

LightSquared

- LightSquared is struggling after FCC delays
 - Proceeding through bankruptcy proceedings on \$1.7bn of debt
 - A competitor (Dish) has acquired \$1bn of debt
 - Harbinger attempting to sue GPS IC for \$1.9bn
 - Claims GPS manufacturers were 'not forthcoming' on GPS receiver performance
- LightSquared seeking potential buyers
 - Dish has been a potential buyer
 - Harbinger still attempting to reconcile with creditors
 - Bankruptcy court proceedings ongoing

What now?

- Awaiting court case to be resolved
- Awaiting output from GPS receiver protection working group

Resources, Inc.

Questions?

Receiver Standards

- Initiative from the FCC's Technical Advisory Council (TAC)
 - White paper in 2013 suggested a harm claim threshold process for receivers
 - Form of receiver self protection

Pilot Program

- FCC implementing a pilot multi-stakeholder group
 - Certain bands in the 3.4-3.6 GHz range
- Test over the next year and review results
 - Potential to apply to other frequency bands of interest
